

## POLICE AND CRIME COMMISSIONER FOR NORTHUMBRIA

### Key Decisions

#### Title and Reference – PCC.64.2014

Approval of the Modernisation and Mobilisation strands, of the Street to Strategic Programme, (excluding mobile devices and device management).

#### Summary

To seek approval for the procurement of a set of product licenses, implementation services and development services to deliver the Modernisation and Mobilisation strands of the Street to Strategic Programme, excluding the procurement of mobile devices.

#### Recommendations / Findings

It is recommended that the Commissioner approves the commencement of the procurement of modernisation product licenses, server equipment and installation services and development services in support of the Modernisation and Mobilisation strands of the Street to Strategic programme using the following procurement mechanisms:-

- Software licenses and installation services are procured using the agreed national framework mechanism available to all Police Forces.
- Server equipment and infrastructure components are procured from the Sprint II framework, mandated for police forces for commercial off the shelf hardware and software components.
- Development and delivery of the user design interface and smartphone, tablet and desktop applications be procured by inviting quotations and tenders in accordance with Financial and Contract Regulations to identify suitable local development partners, where possible.

#### Northumbria Police and Crime Commissioner

I hereby approve the recommendation above.
