<b>Safeguarding</b>												
Assessment of the effectiveness of harm reduction plans for vulnerable victims												88% of harm reduction plans were considered to be of a good or outstanding standard based on a review of 50 harm reduction plans in July 2016; domestic abuse (18 out of 20), crime (11 out of 15), ASB (all 10 reviewed) and hate (all 5 reviewed).
Assessment of the quality of investigations into missing and absent children.												146 missing person records (HRNs) were reviewed and the majority were found to be of a good standard. Contact handler resource allocation was correct for 92% of cases. All RWD risk assessments were deemed to be of an excellent standard. Where risk levels were escalated (11 cases), they were done so correctly and in a timely manner. In 48% of cases, a thorough THRIVE risk assessment was not recorded on the incident log. 33 out of 97 medium risk missing person reports reviewed could potentially have been dealt with as absent.
Assessment of the quality of investigations into hate crime.												54 hate crimes were reviewed in July 2016. All cases were assessed as good or outstanding. Those investigations with a structured supervisory plan ultimately led to positive outcome, even when no suspect was identified. Some organisational learning to consider.
Measures to be determined (MARAC)												
Measures to be determined (MSET)												
Section 136 detentions taken to custody		1	Apr to Sep 2015	2	2015/16	2	Apr to Sep 2016					In FY15/16 1% (2 persons) of those detained under Sec136 were taken to a police station as a place of safety, compared to 7% nationally.
<b>Confidence in reporting</b>												
Percentage of domestic abuse victims who are confident to report further abuse to the police again						96.4%	Apr to Sep 2016					
<b>Repeat victimisation</b>												
Percentage of high or medium risk victims who have suffered a subsequent incident of any category:
